

# FRANCISCO JOAQUÍN FARES

## Software Engineer

Andrade 1547, Burzaco, Buenos Aires - franciscofares23@gmail.com - (+54)-9-1151136155

---

### Professional Profile

I am a detail-oriented Software Engineer with 3 years of experience in designing, developing, and deploying innovative software solutions. Proficient in full-stack development. I know how to build and shift robust applications, I'm comfortable using Node.js for backend and React or Next for frontend side, both with Typescript. Also, I have experience with relational databases such as MySQL or PostgreSQL and non-relational databases like MongoDB or Redis. My knowledge, responsibility and decision making have led me to work with large world-class companies as well as national-level companies.

---

### Professional Experience

---

#### Mid Level Fullstack Developer

August 2023 - Present

Cognit Labs, Remote

- In charge of a logistics system development project, being responsible for designing and implementing the E2E solution.
- Side-participating in a blockchain project being responsible for deployment tasks and code reviews.
- Training of new employees.
- Ensure code quality through constantly PRs reviews.

#### Professor

March 2023 - Present

Universidad Argentina de la Empresa, Buenos Aires

- I've explained to +150 students how to create complex web applications with MERN stack.
- I reviewed over 100 projects.
- I have a rating of 4,98/5 stars.

#### Systems Integration Engineer

April 2023 - August 2023

Rakkau, Buenos Aires

- I've been involved in the development of a Peruvian bank system, particularly in the IAM team.
- I led my team in a transformation from cascade to an agile methodology.
- I designed and developed the integrations between BFFs orchestrators & tenant applications such as homebanking web and mobile.

#### Software Developer

February 2021 - September 2022

Exxonmobil, Buenos Aires

- I've reduced a quarter part of team ticket queue through process automation.
- I gave support to client applications with thousands of users.
- I've been part of the transformation of 2 applications, from a monolithic architecture to a microservices oriented architecture.
